

Colour and Font customisations

While Predictable templates provide a comprehensive change to the overall appearance of the app, you have the flexibility to customise specific elements through Color Code buttons. These buttons allow you to individually customise the Background Color, Font Size, and Font Color for various elements within the app.

The table below outlines the visual customizations available for each feature.

Feature	Background Colour	Font Colour	Font Size
History Strip	✓	✓	✓
Favourite Strip	✓	✓	✓
Message Window	✓	✓	✓
Word Prediction	✓	✓	✓
Keyboard Keys	✓	✓	✓
App Background	✓	X	X

Feature	Visual Customisation
Background Color	This will change the Background Color for elements.
Font Colour	You can select a custom color for the text.
Font Size	You can adjust the font size to your preference for elements.
Bold Keyboard Keys	Turning it on will make the keyboard keys bold.
