

SpeakUnique

- SpeakUnique offer three voice banking services: voice build, voice repair, and voice design.

The voice can then be used in Predictable and the process is simple. Once you have banked your voice you can use the SpeakUnique username and password that they have provided you with and log in within the Speech settings section of Predictable.

If you have questions about the SpeakUnique voice banking services, you can contact SpeakUnique via their website:

<https://www.speakunique.co.uk/overview/>

To download your custom SpeakUnique voice on Predictable, open the speech settings of the app, select SpeakUnique as the voice engine, enter your SpeakUnique credentials and then press download.
