

5.1.5 Using your The Voice Keeper voice

The Voice Keeper

The Voice Keeper service is run by Almagu, a synthetic speech company who have been in this field since 2011. To find out more visit <https://www.thevoicekeeper.com/>.

The Voice Keeper offers 2 options within Predictable:

- 1) standard pre-created children's voices which are available for all Predictable users: Annie (British English) and Harper (American English)
- 2) the user's own custom voice they have created with The Voice Keeper

To download a Voice Keeper demonstration voice, open the speech settings of the app, select The Voice Keeper as the voice engine and select one of the voices offered.

You will find more information about how to build your voice on their website: <https://www.thevoicekeeper.com/>.

To use your Voice Keeper voice in Predictable, simply go into the Settings of our app. Tap on Speech and then The Voice Keeper under the Voice Engine menu. You then enter the username and password that you have set up with the Voice Keeper to download your voice and use it in Predictable. There are some sample voices there too that you can check out!
